EDUCATION

- **B.Tech in Electronics and Communication Technology** 2020-24
Indian Institute of Information Technology, Surat CGPA: 8.07

EXPERIENCE

- **Full Stack Developer** Jan 2024 - Present
EmptyCup Innovations, Bengaluru Remote
 - Robust frontend development with **JavaScript**, **Svelte**, **Three.js**, and **Fabric.js**.
 - Developed scalable backend solutions with **Flask**, deploying on **AWS** infrastructure.
 - Applied agile methodologies for **scalable, clean, modular code** development.
 - Collaborative abilities, effectively working within **compact project teams**.
- **Web Development Intern** May 2023 - July 2023
Dicot Innovations, Ahmedabad Remote
 - Developed multiple pages and components using **ReactJS** for an IoT Dashboard
 - Single-handedly integrated diverse components into a cohesive application.
 - Demonstrated proficiency in ReactJS to create a seamless user experience.
 - Collaborated with the team to deliver a successful, fully functional **IoT Dashboard**.

PROJECTS

- **Present Sir — Attendance Tracker(NextJS)** March 2023 - April 2023
A NextJS web application to track attendance for college students  Github
 - Built an efficient **NextJS** project integrating **Firebase** backend for streamlined student attendance tracking in colleges
 - Implemented **user roles** (admin, teacher, student) with admin managing teachers and batches.
 - Enabled teachers to add attendance for assigned batches, and students to view their attendance records for all subjects.
- **Developer Portfolio — ReactJS** Dec 2022
Engineered and designed personal developer portfolio website using ReactJS  Github
 - Developed and designed personal developer portfolio website using **ReactJS**
 - Showcased skills and projects with React components, hooks, and state management
 - **Indexed** on **Google Search Engine** for enhanced visibility.

TECHNICAL SKILLS

Languages: C/C++, Javascript, HTML, CSS, Python

Libraries : C++ STL, ReactJs

Frameworks: Svelte, NextJS, NodeJS, ExpressJS

Cloud/Databases: MongoDB, Firebase, Relational Database(MySQL)

Relevant Coursework: Data Structures & Algorithms, Object Oriented Programming

Soft Skills: Problem Solving, Self-learning, Presentation, Adaptability

Web Dev Tools: VScode, Git, GitHub, Postman, Ubuntu

ACHIEVEMENTS AND AWARDS

- Recognized as **Intern of the Month** at **Dicot Innovations** for outstanding contributions to web development projects and consistently exceeding expectations.
- Earned a **max contest rating of 1771** on **LeetCode** Contests, consistently performing well in coding competitions.
- Solved **over 420+ algorithmic challenges** on LeetCode, demonstrating a strong proficiency in data structures and algorithms.
- Attained a remarkable **1406 rank on LeetCode** coding contests, demonstrating exceptional problem-solving abilities and a relentless drive for excellence in competitive programming.
- Achieved a **17th place rank in CodeRush 2023**, a coding competition organized by AlgoUniversity, demonstrating exceptional algorithmic knowledge.
