EXPERIENCE

Dicot Innovations, Ahmedabad — Web Development Intern

May 2022 - July 2022

During the internship, I developed multiple pages and components using ReactJS and integrated them into a single application for an IoT Dashboard.

EDUCATION

Indian Institute of Information Technology (IIIT), Surat

B.Tech (ECE)

Dec 2020 - Present

CGPA: 8+

PROJECTS

Present Sir — Attendance Tracker (NextJS)

Link: https://github.com/07manan/present_sir

Developed a NextJS project with Firebase as a backend, allowing colleges to efficiently track student attendance. The system includes three user roles (admin, teacher, and student), with admin managing teachers and batches, and teachers adding attendance for their assigned batches. Students can easily view their attendance records for all subjects.

Developer Portfolio — ReactJS

Link: <https://github.com/07manan/my-portfolio>

Developed and designed a personal developer portfolio website using ReactJS, showcasing my skills and projects. Utilized React components, hooks, and state management to create a responsive and visually appealing user interface. Indexed on Google Search Engine.

OLX Clone — MERN

Link: <https://github.com/07manan/olx>

Built an OLX clone using the MERN stack, allowing users to buy and sell products through a user-friendly interface. Utilized MongoDB for database management, ExpressJS for server-side programming, ReactJS for front-end development, and NodeJS for server-side scripting.

AWARDS

Intern of the Month

May 2020

During the Internship at
Dicot Innovations Pvt. Ltd.

Technical Expertise

- ReactJS
- MERN
- NextJS
- DSA
- C/C++
- Git/Github.
